

December 23, 2025: Letter to Congressman Greg Casar

Good morning,

I am writing to inform your office of an ongoing criminal conspiracy that is being perpetuated from inside of the United States military and national security apparatus.

I have been made undeniably aware of a group of malicious people (a gang) that is controlling and maneuvering the spying apparatus of the USA national security agencies.

From my own investigation of the causes, effects, motives, means, and opportunities that are possible in our modern world, I am certain that this group of criminals is emanating from a nexus point between criminals operating within the United States Space Force, criminals operating inside of Space-X's Star-Shield program, and criminals operating inside of local law enforcement offices.

In my experience, these criminals are united with criminals outside of government agencies and inside of local gangs and, more commonly, local, national, and international businesses.

I am writing to all of my political representatives to inform them of the ongoing use of our nation's spying technologies to personally target members of the public that are deemed to be 'too well informed' of their ongoing criminal conspiracy.

I am a former political representative of my local neighborhood and I was previously elected as a 'Precinct Chair' of Precinct #2053 for the Republican Party of Bexar County, Texas. I also filed numerous public information act requests to investigate the purported voting results of counties across Texas.

Since that time, my home life has been invaded by a large team of people that are receiving real-time information about the work that I am producing on my computer and phones, as well as my movements around the world!

This team of people is then being manipulated to engage with my life in negative ways as a form of constant oppression, agitation, and nuisance.

This is a very large criminal spying network that is engaging with me personally as a threatening 'private nuisance.'
